

GRENDA FACT SHEET

Vol. 8, No. 4

December
2016

The tables and graph below provide a comparison of drug-related arrest of males and female for the period 1 January to 30 June, 2015 and 1 January to 30 June, 2016, respectively. The data was provided by the Criminal Records Office of the Royal Grenada Police Force, using the Grenada Drug Epidemiology Network (GRENDA) Indicator form.

Table 1 Drug Related Arrest Females

Table showing the number of females arrested for drug related offences during the period 1 January to 30 June, 2015 and 1 January to 30 June, 2016.

Time Frame	Frequency	Percentage Change
1 January to 30 June, 2015	18	50% increase
1 January to 30 June, 2016	27	

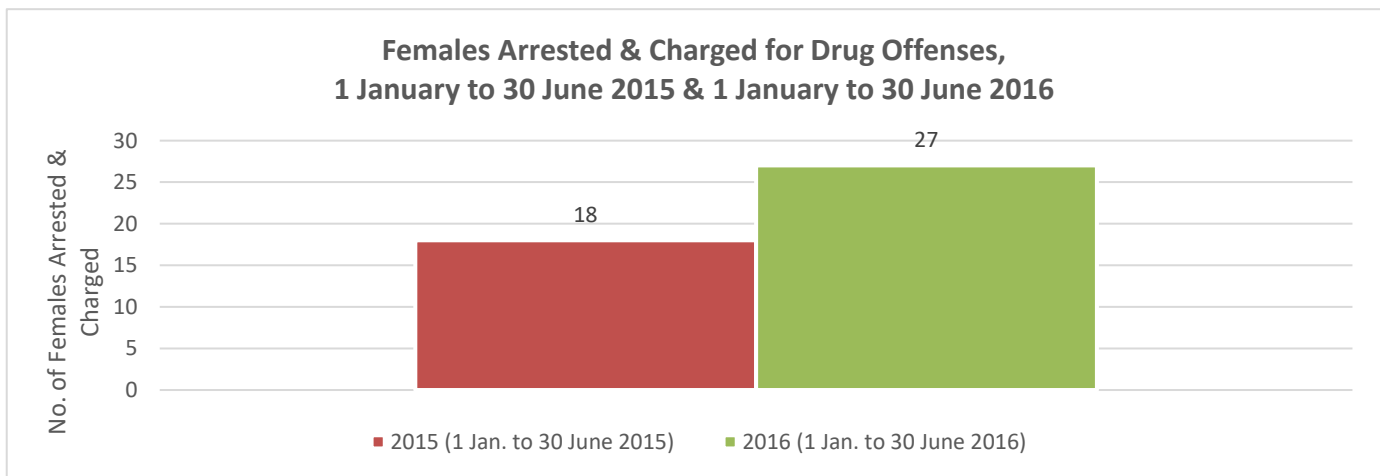

Table 2 Drug Related Arrest Males

Table showing the number of males arrested for drug related offences during the period 1 January to 30 June, 2015 and 1 January to 30 June, 2016.

Time Frame	Frequency	Percentage Change
1 January to 30 June, 2015	389	0.25 % increase
1 January to 30 June, 2016	390	

The Grenada Drug Epidemiology Network GRENDA is the mechanism through which Grenada collects, analyzes, and disseminates information on drugs, and related information, for the purpose of monitoring trends, developing policy, and implementing appropriate programmes and responses.

Further details on the information provided can be obtained from the Drug Control Secretariat.
