## INTRODUCTION: Grenada Drug Information Network (GRENDIN)

The Grenada Drug Information Network (GRENDIN) which is the National Observatory on Drugs in Grenada, is the mechanism through which Grenada coordinates the collection and dissemination of drug-related statistical information and other relevant information from all institutions involved in the area of drug control, or related matters. It is also a mechanism to inform policy makers and the general public. GRENDIN is comprised of institutions which work directly or indirectly in the area of drug control. Since its establishment by cabinet in December 2002, GRENDIN has significantly strengthened Grenada's ability to participate in local, regional and international drug control projects and programmes. It has also played a major role in the implementation of the national drug control programme.

(1) This indicator refers to public officials who commit a corruption offense related to illicit drug trafficking, for example, judges or law enforcement agents receiving bribes from drug traffickers so as not to arrest or sentence those criminals.

**(2) Acts of Corruption** are those identified in Articles VI, VIII, IX, and XI of the Inter-American Convention against Corruption:

1. The solicitation or acceptance by a government official of a bribe (Art. VI.a)
2. The offering or granting to a government official of a bribe (Art. VI.b)
3. Any act or omission by a government official for the purpose of illicitly obtaining benefits for himself or for a third party (Art. VI.c)
4. The fraudulent use or concealment of property derived from an act of corruption (Art. VI.d)
5. Transnational bribery of a government official (Art. VIII).
6. Illicit enrichment of a government official (Art. IX)
7. The improper use by a government official of classified or confidential
8. Embezzlement by a government official (Art. XI.1.b)

**(3) Illicit drug trafficking** is as referred to in Article 3, paragraphs 1 and 2 of the 1988 U.N. Convention. Generally speaking this means possession for the purpose of trafficking, cultivation, production (including manufacturing and processing), import/export, distribution and sale.

**<sup>(1)</sup> Firearms:**

- a)- any barreled weapon which will or is designed to or may be readily converted to expel a bullet or projectile by the action of an explosive, except antique firearms manufactured before the 20th Century or their replicas; or
- b)- any other weapon or destructive device such as any explosive, incendiary or gas bomb, grenade, rocket, rocket launcher, missile, missile system, or mine.

**<sup>(2)</sup> Ammunition:** the complete round or its components, including cartridge cases, primers, propellant powder, bullets, or projectiles that are used in any firearm.

**<sup>(3)</sup> Explosives:** any substance or article that is made, manufactured, or used to produce an explosion, detonation, or propulsive or pyrotechnic effect, except:

- a)- substances and articles that are not in and of themselves explosive; or
- b)- substances and articles listed in the Annex to the Inter-American Convention Against the Illicit Manufacturing of and Trafficking in Firearms, Ammunition, Explosives and Other Related Materials.

**<sup>(4)</sup>** Following the language from the Vienna Conventions: “**Confiscation**”, which includes forfeiture where applicable, means the permanent deprivation of property by order of a court or other competent authority.

**<sup>(5)</sup> Illicit drug trafficking** means the offenses identified in Article 3, paragraphs 1 and 2 of the United Nations Convention Against Illicit Traffic in Narcotic Drugs and Psychotropic Substances, 1988.

<sup>(1)</sup> **Pharmaceutical products** are those that contain substances defined in the 1961 UN Convention, as amended in 1972, and the 1971 Convention that are lawfully distributed for medical and scientific purposes. Such products include those of a single basic compound or “raw material” and formulations containing such drugs.

<sup>(2)</sup> **Seizure** means temporarily prohibiting the transfer, conversion, disposition or movement of property or temporarily assuming custody or control of property.

<sup>(3)</sup> **Disposed of** includes sale (where permitted) and destruction or otherwise rendering unusable (e.g. dilution, neutralization, incineration). The authority to dispose of these pharmaceutical substances and the

circumstances under which this can be done are usually defined by legislation or regulations. In most cases, this requires a formal act of a competent legal authority.

<b>No seizure nor disposal of controlled chemical substances</b>	

<sup>(1)</sup> **Controlled chemical substances** means chemical substances contained in Tables I and II of the United Nations Convention Against Illicit Traffic in Narcotic Drugs and Psychotropic Substances, 1988 as well as those chemical substances controlled by the reporting country and listed in CICAD's Model Regulations and other substances not included in said Model Regulations. Such substances include chemical products containing a single basic compound or "raw material" and products containing combinations of chemical substances.

<sup>(2)</sup> **Seizure** means temporarily prohibiting the transfer, conversion, disposition or movement of property or temporarily assuming custody or control of property.

<sup>(3)</sup> **Disposed of** includes sale (where permitted) and destruction or otherwise rendering unusable (e.g. dilution, neutralization, incineration). The authority to dispose of these controlled chemical substances and the circumstances under which this can be done are usually defined by legislation or regulations. In most cases, this requires a formal act of a competent legal authority.

<sup>(1)</sup> **Laboratories** refer to facilities or locations where drugs are produced, manufactured, diluted, mixed or otherwise prepared (including processing pits). These drugs include organic based substances such as cocaine, heroin, hashish etc.

<sup>(2)</sup> **Coca Paste:** This is produced from coca leaves which have been dissolved with kerosene and sulfuric acid (so as to extract the alkaloid of the cocaine) and sodium carbonate (to extract any impurities which the process may have produced). This is generally known as coca paste.

<sup>(3)</sup> **Cocaine Base:** This is the equivalent of washed coca paste and is the drug produced from the coca paste which has been put through the process of oxidation through potassium permanganate, as well as sulfuric acid, so as to dissolve substances and impurities.

<sup>(4)</sup> **Cocaine Hydrochloride:** This is the drug produced from the washed coca paste, which has been put through a dissolving and crystallizing process through the use of acetone and hydrochloric acid.
